

A screenshot of a Nearpod presentation slide titled "Question #4 of 10". The question is: "¿Cómo se llama la relación entre un nodo y sus hijos en un árbol?" (What is the relationship called between a node and its children in a tree?). The slide features a green landscape background with trees and falling snowflakes. On the left, there are four answer options in colored boxes: a blue box for "Relación abuelo–niño.", an orange box for "Relación padre–hijo.", a purple box for "Relación amigo–amigo.", and a white box for "Relación hermano–hermano.". A red circle with the number "10" is visible in the top right corner of the slide area. In the bottom right corner, there is a speech bubble with the text "joel adrian caballero lugo". The bottom of the slide has a navigation bar with "1 de 3" and "Abrir navegador ▲".
